Link HR ranked 40th in Deloitte and Touche Awards

Link HR has been ranked 7th in the North and 40th overall in the Deloitte and Technology UK and Ireland Fast 50 Awards for 2006.

The awards have become the benchmark to identify the UK's fastest-growing high-technology companies through an objective ranking based on sustained revenue growth over the past five years.

The Fast 50 Awards programme, now in its ninth year, ranks the 50 fastest-growing technology companies in the UK. It covers both public and private companies in all areas of technology, from internet specialists to life sciences, computers to semiconductors, software to telecommunications.
